PROFESSIONAL SUMMARY

Full Stack Software Engineer with professional experience building scalable web applications using React, TypeScript, Node.js, and modern backend technologies. Experienced in designing REST APIs, database systems, third-party integrations, and production deployments. Strong foundation in software architecture, problem-solving, and cross-functional collaboration. Familiar with Python, Django, and Django REST Framework, with experience building API-driven applications.

WORK EXPERIENCE

Web and Mobile Development Mentor – Career Pathways Program **May 2026 - Present**
Lord Buddha Education Foundation (LBEF) Maitidevi, Kathmandu

- Delivered beginner-friendly web development sessions to Grade 12 graduates.
- Guided and mentored students during hands-on coding activities and exercises.
- Facilitated interactive learning sessions, improving engagement, confidence, and collaboration.

Full Stack MERN Developer **March 2025 - Present**
Bechchha Tech Pvt. Ltd. Kamalpokhari, Kathmandu

- **Chimeki – Peer-to-Peer Live Marketplace Platform**
 - Researched and designed the system architecture, database schema, and service workflows for a location-based marketplace platform.
 - Defined REST API specifications, authentication flows, and business requirements for users, listings, orders, and payments.
 - Evaluated Uber-style geospatial solutions, including hexagonal zoning strategies, to support efficient location-based search and future scalability.
- **eSales Nepal:**
 - Led development of a production-grade e-commerce platform, implementing complex business logic across authentication, orders, payments, and fulfillment workflows.
 - Designed scalable backend architecture and APIs, addressing real-world challenges involving data consistency, access control, fault tolerance, and third-party system integrations.
 - Integrated third-party payment gateways and logistics providers, including **NepalPay** and **Nepal Can Move**, enabling secure payment processing, automated order tracking, and reliable fulfillment operations.
 - Managed deployment, server configuration, database backups, and production infrastructure on VPS/Linux, ensuring high availability, performance, and disaster recoverability.
 - Collaborated cross-functionally with product, and integration teams, resolving technical issues across the full lifecycle from system design to production support.

Frontend Internship **April 2024 - July 2024**
Spices Research & Consulting Pvt Ltd, (Business vertical of FISoft) Manidown, Lalitpur

- Built and optimized React components for the Providhy project, improving UI/UX for purchase, sales, and master dashboard.
- Developed a custom Nepali date picker from scratch, solving the limitations of existing libraries.
- Worked closely with cross-functional teams to deliver solutions to meet project's requirements.

PROJECTS

- **Employee Insurance System (React, Node & MySQL)** – Developed a system allowing companies to subscribe to insurance, employees to make claims, and insurers to process them digitally.
- **Cafeteria Ordering System (Java RMI & MySQL)** – Built a Java-based ordering system using Java RMI, MySQL, and Java Swing for real-time order processing.
- **Library Management System (Database Design)** – Designed a SQL Server-based system utilizing stored procedures, triggers, and optimization techniques for efficient user and book management.
- **Appointment Booking System (AWS & Next.js)** – Implemented a cloud-based Next.js application on AWS using S3, EC2, and VPC for scalable appointment scheduling.
- **Data Warehouse & Analytics Platform** – Built a Medallion Architecture data warehouse with ETL pipelines, dimensional models, and analytical datasets for business reporting.

Additional Projects: On-Demand Ambulance Booking Service (MERN), Employee Attrition Data Analysis (R), Food Ordering System(.NET), MusicSync (React & Socket.io), Markdown Live Editor (React), Marketplace Backend (Django), Plant Disease Detection (MobileNetv2 and Flask), Netflix UI/UX Case Study

EXTRA CURRICULAR ENGAGEMENTS

- **Event Advisor, HackxLBEF (Hackathon)**- Provided advice and support in planning and executing HackxLBEF, contributing to its success.
- **Event Leadership & Coordination:** Organized multiple college events (Dashain, Christmas, Winter Fest), collaborating with teams and administration to develop leadership and teamwork skills.
- **President, Student Representative Council (SRC), LBEF** - Represented the student body, collaborated with administration for student welfare, and led the organization of Winter Fest.
- **Private Tutor:** Provided one on one tutoring, developing communication, and mentoring skills.

SKILLS

- **Languages:** JavaScript, TypeScript, Python
- **Frontend:** React, Next.js, HTML, CSS, Tailwind CSS
- **Backend:** Node.js, Express.js, NestJS, Python, Django, Django REST Framework
- **API & Protocols:** REST, Web Sockets
- **Testing:** Jest, Supertest, Postman
- **Database:** MySQL, SQL Server, MongoDB, Redis
- **Deployment:** Linux, Docker, Git/GitHub, AWS, VPS configuration
- **Other Technologies:** Go, .NET (C#), Django, Cloudinary

COURSES

- **The Complete Full-Stack Web Development Bootcamp** Angela Yu, Udemy
- **The Ultimate React Course** Jonas Schmedtmann, Udemy
- **NodeJS - The Complete Guide** Maximilian Schwarzmüller, Udemy
- **Data Analysis with Python** freeCodeCamp

EDUCATION

MSc in Information Technology Management	(November 2025 - Present)
Lord Buddha Education Foundation College	Maitidevi, Kathmandu
Asia Pacific University of Innovation and Technology (Affiliation)	Malaysia
BSc (Hons) Information Technology	(2022-2025)
CGPA	3.83/4.00 (Merit Award Recipient)
Lord Buddha Education Foundation College	Maitidevi, Kathmandu
Asia Pacific University of Innovation and Technology (Affiliation)	Malaysia
